Awning Type

**Thermal Insulation • Noise Reduction • Built-In Drainage System**

**No Need to Repaint • Termite, Rust and Corrosion Free • Seamless**

**Atlanta Conch uPVC Windows & Door System** is made with one of the best quality PVC Profiles in the world. Each component is high quality and is assembled with modern equipments by highly skilled technicians.

## Why Use Atlanta Conch Windows & Doors?

### Highly Customizable

With its highly adaptable materials, Atlanta Conch is suitable to any design requirements needed; creating endless architectural possibilities.

### Built-In Drainage System

Our windows incorporate an 8mm overlap between frame and sash, as well as dual compression gaskets, to prevent both dust infiltration and water leakage.

### Noise Reduction

PVC Material and the profile has a multi-chamber design thereby cutting unnecessary disturbances and combined with insulating glass that can reduce noise by 1/8 of original noise level (33-43dB).

### Termite, Rust and Corrosion Free

Unlike aluminium and wooden doors, PVC Windows are totally rust and corrosion free.

### Thermal Insulation

Proven performance in reducing energy consumption for cooling, reduce as much as 48-61% greenhouse emissions compared with aluminium framed windows and doors. PVC has excellent thermal properties, compared to its metallic counterparts that conducts heat easily.

### No-Need to Repaint

With our carefully selected color profiles, these will surely fit on any Residential, commercial and industrial building designs.
