SEA DRAGON FISH CAGE SD-B

ATLANTA HDPE FISHCAGE

Application For fish farming in an open sea.

Average Lifespan (material) 100 years

ATLANTA HDPE FISH CAGE is the first HDPE fish cage manufactured in the Philippines. This cage contains no parts of wood or metal that can be destroyed by salt water or sea worms. This plastic cage proves to be superior quality to those of traditional materials like steel and wood. Atlanta HDPE Fish Cage is made entirely of High Density Polyethylene (HDPE), in a combination that utilizes the strength and flexibility of the material. Atlanta HDPE Fish Cage is assembled by our own qualified plastic welders and technician.

Product Range

SEA LION (CIRCULAR)

SEA DRAGON (SQUARE)

SEA LION FISH CAGE (CIRCULAR)
